

Diener&Diener

Basel, Apartment Buildings

Riehenring, 1982-85

Bläsiring/ Hammerstrasse 1978-81

01 Context

"Where the Apartment Buildings Hammerstrasse established a typological and architectural relationship to the ideal city, the Apartment Buildings Riehenring developed from an engagement with the biography of the site, which was previously a galvanizing plant. The freedom that an industrial location offers should inform not merely the building's spatial organization, but also its expression."

Joseph Abram: Diener & Diener: The beauty of the real, p.42, Phaidon

subsidized housing project
